Original Warranty Rules

1. Manufacturer Warranty & Responsibility Disclosure

This store operates as an authorized reseller and is not the manufacturer of the products. **All warranties are provided and administered by the Original Equipment Manufacturer (OEM). All defect assessments, repair decisions, and replacement determinations are conducted in accordance with the manufacturer's official service standards.**

2. Warranty Period

The standard manufacturer warranty is valid for 365 days from the original date of purchase.

3. Repair & Warranty Processing

Repair time, including logistics, transportation, and manufacturer diagnostic procedures, is included within the original warranty period. The warranty period is not suspended, paused, or extended during service processing.

4. Complimentary Service Handling

During the warranty period, we offer free drop-off and shipping services to send your device back to the manufacturer. **Please note: Our service of sending the device for you is completely free. However, whether the actual repair will cost money is decided solely by the manufacturer.** The estimated repair times are listed below:

Apple Devices

In accordance with Apple's official policy, warranty cases may be handled via repair or replacement service, depending on the diagnostic outcome. Estimated processing time is approximately **14–30 days**.

Android Devices

Manufacturer diagnostic and repair procedures typically require **14–21 business days**, excluding weekends and public holidays.

5. Service Progress & Updates

We assist in monitoring repair progress throughout the service period. Final completion timelines are subject to the manufacturer's internal scheduling.

For customers requiring detailed technical status updates, we can provide the official repair reference number and manufacturer support channels for direct inquiry.

6. Loaner Device Service

Loaner devices may be provided during the repair period, subject to availability. Device models and specifications may vary and cannot be guaranteed.

Loaner devices must be returned upon collection of the repaired unit.

Customers are responsible for any loss or damage to loaner devices during the borrowing period, including but not limited to physical damage or loss.
